

VIVA CONNECTIONS PILOT

Learn How Viva's Tools Can Enhance Employee Experience and Personal Growth

Do you want to optimize your employee experience to help attract and retain top talent?

In today's competitive market for talent, optimizing the employee experience is a critical part of both recruiting and retaining key personnel. Microsoft Viva's groundbreaking tools enable you to streamline the navigation of internal information, optimize employees' personal growth through key content, and leverage machine learning to enhance the day-to-day employee experience. These benefits are achieved with three key tools: Viva Connections, Viva Learn, and Viva Topics.

IN THIS OFFER, INTERLINK WILL SHOW YOU HOW TO STRATEGICALLY LEVERAGE THE VIVA CONNECTIONS TOOL AND WHAT IT CAN ACHIEVE.

OVERVIEW

► Assessment

Review current SharePoint, Teams, and Yammer implementation, as well as overall Microsoft 365 tenant setup and licensing.

► Art of the Possible

Host a workshop covering Viva Connections, Viva Topics, Viva Learn, Viva Insights, Adaptive Cards, and/or SharePoint Syntex.

► Viva Pilot Implementation

Enable Viva trial licensing, configure Viva Connections, enable Viva Topics (with content inclusion), and implement sample use case for Adaptive Cards.

► Viva Topics Hackathon

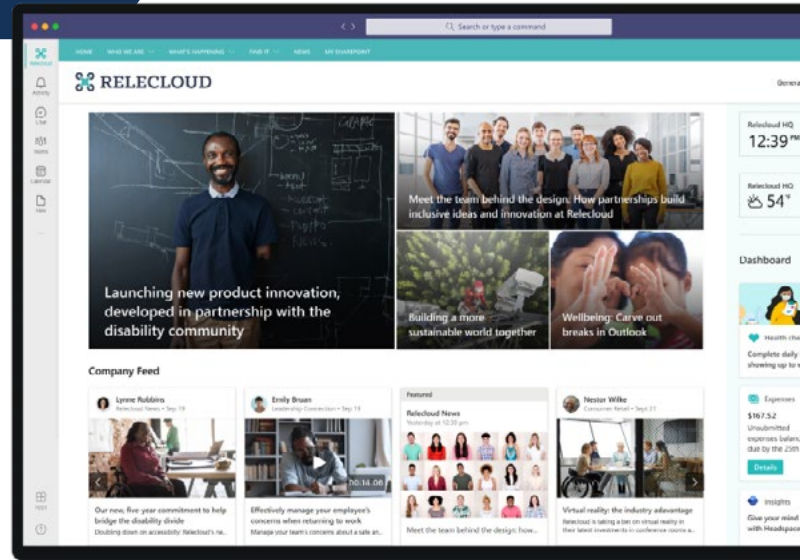

After Viva Topics has been enabled for 3 weeks, host a 2-hour hackathon with content owners.

MICROSOFT HAS CREATED VIVA...

to help companies excel at recruiting and retaining key personnel by optimizing their employee experience with a suite of products that help team members quickly access information and learning resources, collaborate more effectively, and better manage work/life balance both as individuals, managers, and leaders.

What you will receive from this engagement:

- ▶ Setup of Viva Connections Pilot configuration
- ▶ Enable Viva Topics and setup content inclusion
- ▶ Sample Adaptive Card implemented within client's live environment
- ▶ Initial content curation will begin for Viva Topics
